Forecast for Tuesday 29 Mar 2022

Weather: Mostly clear overnight but some mist and perhaps fog patches forming around dawn. A dry morning with some bright or sunny spells but cloud increasing during the afternoon and the possibility of a few showers later.

Chance of cloud-free hill tops above 700m: 60% improving to 80%.

Low cloud and visibility: Mainly cloud free around dawn but some mist and fog patches forming giving some poorere visibilities for a time. This will improve during the morning. Otherwise some patchy cloud during the afternoon around the summits but generally good visibility.

Meteorologist's View

Nothing to add.

Forecast for Wednesday 30 Mar 2022

Weather: Colder air will move south overnight with freezing level falling to 400m. A few wintry showers will spread from the north, falling as sleet or snow on the hills some brightness also expected with sunny spells. Cold north or northeasterly winds are likely to become gusty around the showers.

Maximum wind: Northerly 15mph with gusts 25mph but perhaps 30mph around showers.

Chance of cloud-free hill tops above 700m: 70%, most lower cloud will be in association with showers,

Low cloud and visibility: Cloud will temporarily become scattered or broken above 600m in any snow showers perhaps lower if more intense snow showers form. Visbility will become very poor in showers and perhaps temporary whiteout conditions on the higher summits in heavier showers, outwith showers visibility will be very good in the cool northerly airstream.

Temperature: **Valleys:** Minus 2 rising to 3 Celsius.
At 700m: Plus 1 falling to Minus 3 Celsius later.
Freezing level: 800m falling to 200m.
